Super Power Bench 2

Our Super Power Bench 2 is the industry leader and the ultimate Powerlifting Bench Press. Built to AAU Powerlifting Specifications, this unit is second to none in quality, components, and craftsmanship. Features include premium grade 3" x 3" and 2" x 4" Heavy Wall Tubing, a 16" x 32" spotter's platform, wide grip bar uprights, and 3/4" adjustment pins for the ultimate in safety. Bar Catches are lined with UHMW, a high tech composite material that will keep both the Bench and your expensive Powerlifting Bar looking new by totally eliminating steel to steel contact. Don't be fooled by other manufacturers offering "chrome" as some sort of benefit. Steel on steel contact will destroy your bar over time and the chrome will disappear as well. The ultra-dense dual density padded 48" long bench, comes in your choice of widths, from AAU Regulated widths of 11 1/2" to 12 5/8". Pictured here is a 12" wide pad.

Our foam padding is very high tech, complete with built in memory. Other manufacturers may use "rebond" which is basically carpet padding. Rebond will break down over time and offer little protection on heavy lifts. This is without a doubt the finest Bench Press of its kind on the market today!

MODEL: PFSPB2
FOOTPRINT: W 52", L 56"
SHIPPING WEIGHT: 250 lbs.

Price: \$775.00
