

## Plate Loaded Dip Machine

Pro Fitness introduces its new Power Series Plate Loaded Machines. The Power Series Plate Loaded Equipment is the perfect answer for high performance athletes and also casual lifters who are looking to achieve superior strength, coupled with the benefit of a higher level of safety.

The fully adjustable seat and knee hold down pads allow you to fine tune the pre-stretch and range of motion. Designed with a clear frontal area which enables the lifter to achieve different results by leaning forward or lifting in a straight up position. The dual position hand grips allow for multiple position lifts, including extra-wide Olympic style lifting. Additional features include built in Olympic Plate Storage Pins and ultra smooth Dual Over Sized Lifetime Bearing units.

Weight Plates Pictured Are Not Included.
