

## Angled Leg Press - PRO

The "Pro Model" Linear Bearing Angled Leg Press features our Extra-Large Center Load Carriage Assembly, complete with 2 - 20" Chrome Weight Holding Shafts. With this "Center Load" carriage, this unit is 20" narrower than most side load Leg Press Machines. The weight holding shafts easily accommodate 38" of 45lb. & 100lb. sized Olympic Plates. Also included in this model is a huge over-sized pressing area covered with Aluminum Diamond Plate. This attractive oversize carriage allows lifters a wide variety of foot placement positions to meet specific training needs.

Additional features include silky smooth Linear Bearings gliding on Case Hardened Shafting, as well as the Adjustable Back Pad, Head Pad, and Dual Lockout Positions for different size lifters.

Muscles Targeted: Quadriceps, Gluteus, Hamstrings

Price: \$1,875.00
